WORK EXPERIENCE

PLUMDROP, New York — *Web Design Intern*

JULY 2018

- Maintained company website through Wordpress interface
- Revamped products layout for outdoor packages
- Created mockups for different user viewpoints

FREELANCE, New Jersey — *Portfolio Designer*

JULY 2018

- Created Wireframes and Mockups of the different pages needed for the Client
- Used HTML & CSS skills to perfect the portfolio to my Client's liking
- Ensured the portfolio was mobile compatible

HACK-A-THON PROJECTS

Instant Health — *UX Design + HTML & CSS, JavaScript*

OCTOBER 2018

- Developed a web-application that allows for patients to view their Health History and reasons for past Dentist, Primary Care Doctor, and ER visits
- Wireframed and Prototyped Patient and Health Professional Viewpoints
- Project completed within 24 Hours

PERSONAL PROJECTS

My Portfolio — *UX Design + HTML & CSS*

OCTOBER 2018

- Prototyped the Desktop version & Mobile version of my Portfolio Design on ADOBE XD to ensure the UI was user friendly
- Iterated my prior Portfolio Design

Montclair, NJ

Bachelor of Science in Computer
Science, May 2018

Fitness: Workouts & Nutrition — *UX Design + HTML & CSS*

JANUARY 2018

- Built a resource to help a friend who was struggling to maintain a consistent workout schedule and healthy diet plan
- The creation of this Health & Fitness resource allowed my friend to allocate her free time to invest in her health and well-being

Cryptography — *JavaScript*

JANUARY 2018 - FEBRUARY 2018

- Created a code and cipher system inspired by the book Code Girls
- Able to enter words, numbers, letters as well as special characters, and it is encrypted
- Encoded message only able to be read if peer has the private key, the codebook I created, to decipher the message.
